## Motion Outcomes:

The number of contested motion decisions, win rate, and time in months from motion filing to decision by Judge Robinson in these cases are shown below, broken out by motion type and movant. The movant for Markman decisions is listed as "Unknown" in LegalMetric's system because there is not requirement for an actual motion to initiate the claim construction process, and the win rate is arbitrarily set to "0". The stay motions listed below include all stay motions, not just stay pending IPR or stay pending reexamination motions. See following sections for details. For all motion types, the average win rate on plaintiff's motions was 44.7%, the average win rate on defendant's motions was 37.4% and the difference was 7.2%. The nationwide difference on plaintiff v. defendant motion win rates in patent cases is 6%.

## Dismissal

There were 270 Dismissal contested decisions by Judge Robinson. The overall contested win rate on these motions was 43.3%. The average time (in months) from motion filing to decision was 6.0. The distribution of time to decision for the first 12 months of motion pendency is shown below, with any motions remaining pendency after 12 months lumped into month "13". Months with no decisions are not included in the chart. Note that the first month includes all decisions occurring less than 1 month from motion filing.

The supporting data is shown below.

## Exceptional Case

There were 13 Exceptional Case contested decisions by Judge Robinson. The overall contested win rate on these motions was 15.4%. The average time (in months) from motion filing to decision was 8.2. The distribution of time to decision for the first 12 months of motion pendency is shown below, with any motions remaining pendency after 12 months lumped into month "13". Months with no decisions are not included in the chart. Note that the first month includes all decisions occurring less than 1 month from motion filing.

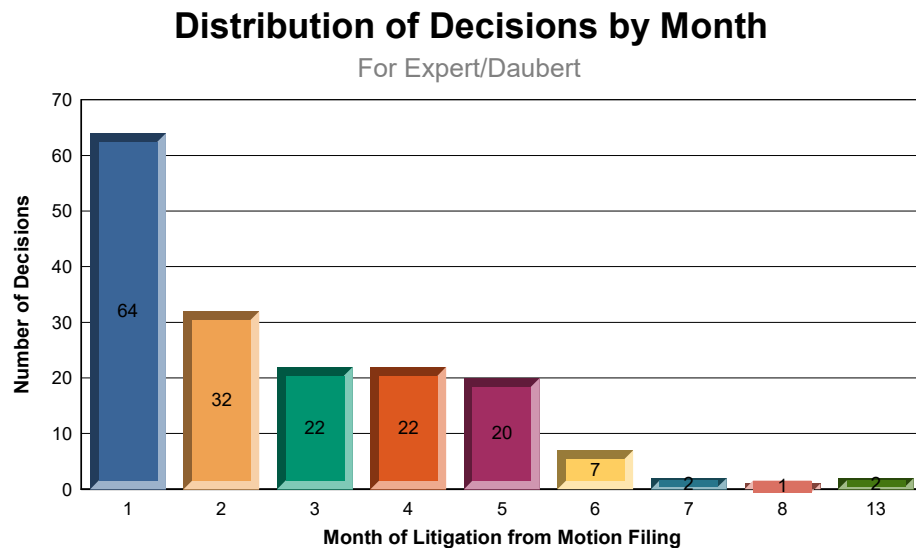

The supporting data is shown below.

## Expert/Daubert

There were 172 Expert/Daubert contested decisions by Judge Robinson. The overall contested win rate on these motions was 43.0%. The average time (in months) from motion filing to decision (or in the case of Markman rulings, from case filing to decision) was 2.2. The distribution of time to decision for the first 12 months of motion pendency is shown below, with any motions remaining pendency after 12 months lumped into month "13". Months with no decisions are not included in the chart. Note that the first month includes all decisions occurring less than 1 month from motion filing.

The supporting data is shown below. The table below identifies motion subjects ("What") and grounds ("Why") and includes the designation GIP for those subjects and grounds which were granted in part and denied in part.
